

LOVE IN THE NAME OF CHRIST — HELPING CHURCHES HELP PEOPLE

WE ARE EXPLORING THE POSSIBILITY OF DEVELOPING A **HOUSEHOLD GOODS MINISTRY**

*This would be a ministry to
acquire, evaluate, inventory, and deliver limited household goods
to clients in need.*

Through our call center, we have a list of commonly requested household items. This is an identified community service gap, and we are exploring the possibility of developing a ministry to fill the gap. We have been gifted some limited storage space, but to utilize it we must first bring structure to this ministry through leadership.

LOOKING FOR TEAM LEADERS

We are looking for people interested in helping to facilitate a Household Goods Team. While we have people willing to serve in various capacities, we cannot move forward until we have leaders in place.

Identified leaders will work together with a ministry development coach to build and launch a strong ministry to fill this gap in our community. If you are interested in serving on our Household Goods Leadership Team, please give us a call for more information.
